What you learn:

- Speak words and sentences in standard American English with the correct pronunciation
- Learn to use the muscles of the tongue, lips and mouth to get the right sound.
- Get the correct pronunciations of the difficult words and the sounds such as "TH" "R" "L" "V" "W"
- Understand and use phonetic spelling
- Focused practice of skills learned in the lectures
- Improve your listening skills with Native American English through ear training
- Hear the difference between long vowels and short vowels.
- Say the sounds of the alphabet clearly and correctly

Description:

If your goal is to master English pronunciation and learn the way native English speakers learn, allow me to be your guide. I've helped hundreds of thousands of English learners develop the key skills and habits need to get that native English sound. This includes methods and strategies, but also tons of real-world examples. That's how native English speakers learn.

I will guide you step by step through this course, from essential English sounds (and how to make those sounds) to advanced pronunciation, including similar sounds, intonation, stress, and much more.
